PRODUCT DESCRIPTION

This stackable wedge is made for the storage « tête-bêche » of special bottles on wooden pallets. It is suitable for the storage during « prise de mousse » and for the storage before labelling.

Dimensions

Wedging technique

NUMBER OF BOTTLES

390

bottles per box,
i.e. 30 bottles per stackable wedge.

COMPATIBLE BOTTLES

Céleste | Ocarina | Carmen | Gardi |
Spumante Junior | Champagnotta
Première | Sonate | Cuvée des Sacres |
Champaña Conica | Champaña Francia

KEY POINTS

- ➔ PS plastic material
- ➔ No shock between bottles
- ➔ Suitable for manual and automated process
- ➔ Lower investment compared to a storage stillage box

And also: our thermoformed plastic wedges can be stored in stillage crates (contact us for more information).
